RE: Special Waste Shipper/Transporter Identification Number 320566, Oakley Trucking Inc,
3400 Gribble St North Little Rock, AR 72114

Dear Jeremy Paul:

Your application for an Arizona Special Waste Shipper/Transporter Identification Number has been received and reviewed by the Arizona Department of Environmental Quality (ADEQ). The number assigned to the specific facility or site referenced above is number **320566**. This number must be used on all forms associated with the handling of wastes designated as “special wastes” by the State. In addition, the number shall be used for the specific facility listed on the application.

Please note that all special waste generators, transporters, and receiving facilities are required to file a Special Waste Annual report by **March 1st** of each year for the preceding year, even if zero special waste was generated, transported, or received. The report form can be found at <https://www.azdeq.gov/special-waste-requirements>.

Please notify this Department if the specific facility or site discontinues the handling of special wastes and/or your handling procedures are expanded so that the Special Waste Shipper/Transporter account can be deactivated. The Special Waste Information Update form can be found at <https://www.azdeq.gov/special-waste-requirements>.

Thank you for your efforts to comply with Arizona’s environmental requirements. Should you have any comments or questions regarding this matter, please do not hesitate to contact me at (602)771-4388 or by email at adams.austin@azdeq.gov.

Sincerely,

DocuSigned by:
